

Instructions on How to Install for Apple Macintosh:

1. After unzipping the file, double click the installer.
2. After installation is finished, open System Preferences. Click on Language & Text.

3. Click the Language tab. In this section, add CWY to the list. It is located near the bottom of the list.

4. Then click Input Sources. Scroll through the list until you see Cherokee Nation. Click the check box next to Cherokee Nation and Cherokee Nation Phonetics. This will enable both the Cherokee Nation Layout and the Cherokee Nation Phonetic layout.
5. After enabling the keyboards, there will be a flag icon in the upper right of your screen. Click on this flag to switch between the layouts.
